#### Action proposed on Students feedback report

Sl. No	Suggestions	Action proposed
1	Application oriented problem solving skills has to include more in the course.	By discussing more case studies helps the students to solve the problems and can improve the thinking levels.
2	Apart from theoretical, practical knowledge is very important to the professional students.	Management will be planned in order to build strong practical knowledge.
3	Designing an effective application strategy is deciding on the subset of qualities and strengths	Analytical intelligence makes ability to solve quantitative problems so focus on gaming theory will be planned.
