Formerly known as VISAKA ENGINEERING COLLEGE

Accredited by NAAC

Bakkannapalem (V), Madhurawada (PO), Visakhapatnam-530048.

ACTION TAKEN REPORT

FEEDBACK BY STAKEHOLDERS

The institution ensures that the curriculum offered is relevant to the reality of the time. Follows a systematic process to maintain the standards that characterize your organization. The steps taken to maintain and improve quality are:

- Strictly adhere to the guidelines issued by regulatory agencies from time to time.
- According to the revised curriculum developed by partner universities, ie. JNTUK
- Discuss curriculum-related issues with department heads at academic committee meetings and resolve these issues quickly.
- Gather feedback from various stakeholders
- Held regular meetings of various statutory bodies to promote timely information on the revised / updated curriculum.

The curriculum of all programs will be revised in accordance with the rules of affiliated universities, namely JNTUK. These efforts are realized in the form of feedback gathered from stakeholders in relation to the curriculum. IQAC has developed a formal mechanism for collecting feedback on the program from all stakeholders. The feedback coordinators in all departments have prominent outside members who provide feedback on the curriculum. Feedback from students, teachers, employers, parents and Alumni will be considered. IQAC has developed a structured survey that collects formal curriculum feedback from a variety of stakeholders, taking into account the latest developments in disciplines, industry requirements, and social needs. The faculty accepts feedback from students on their educational experience regarding various aspects of the curriculum provided. Feedback is manually requested by teachers, graduates, parents and employers during formal meetings. Suggestions received from feedback will be analyzed and communicated to IQAC.

After analyzing the feedback, the action plan has been initiated.
